

With under a month to go until the Microbiology Trends: Past, Present, Future event, ALS Environmental are pleased to announce some of the speakers at the conference and the practical demonstrations on show to delegates. The event will be taking place on Friday 19th February 2016 at our Coventry laboratory, with registration opening at 09:30.

The morning will be made up of a range of talks, including a question and answer session with all speakers from the panel. The speakers will include:

Bruker Daltonic - Lesley Scott - MALDI-ToF Confirmation

BD Kiestra - Ann Woods - Laboratory automation

ALS Environmental - Christopher Card - Validation & Accreditation Process

PALL - Eric Samuels - PCR Developments

Oxide - TBC - Chromogenic Media

Following a free lunch, all delegates will then visit the ALS Environmental laboratory to see practical demonstrations of a range of analytical techniques. The tour will also allow delegates to ask technical questions of our analysts; these topics will include:

- Legionella PCR
- Microbiology
- Flow Cytometry
- Legionella Culture
- Waste Microbiology
- Cryptosporidium
- MALDI-ToF Confirmations

Upon unveiling the details for the Microbiology Trends: Past, Present & Future event, Nick Barsby, ALS Environmental's Sales & Marketing Manager, comments:

"We are delighted to announce the programme of speakers for the upcoming microbiology event. The conference promises to be an informative and interactive day with a unique opportunity to gain hands on experience of the analytical methods we undertake on a daily basis"
