

Zac Ribak - Specialist Installer of Green Walls, Green Roofs and Intelligent Irrigation

Zac will show the Magic you need to deliver installations that customers can rely on to Survive and Thrive.

Getting it right – right from the start!

It is crucial to start the process with a proper understanding of the whole job: getting the design right, selecting the most appropriate system, rainwater/mains water supply, materials, plant selection, nutrition, fertigation, collaboration with clients and other contractors both on site and off site.

Zac will show you how to get fabulous results. He will make the invisible visible!

It is this specialist knowledge and experience that produces exceptional performance.
