

Retrofit Live is the UK's leading exhibition and conference dedicated to delivering energy efficient buildings better, faster and for greater value for money. Taking place 9th and 10th April at the CoRE Conference Centre, Stoke on Trent.

This event is aimed at those who want to be armed with the knowledge to get ahead and stay ahead in the retrofit market. The retrofit sector may face massive challenges, but the opportunities remain huge. With the Energy Company Obligation reinvented, the Green Deal Communities Fund boosted and other demand channels bearing fruit, the market is evolving apace. Two days at Retrofit Live will significantly boost your knowledge, contacts and ideas and provide you with a competitive edge.

This two day event comprises:

- Retrofit Live Conference: key learnings from Retrofit for the Future and keynote debates
- Retrofit Bites: highlights from the CoRE Masterclass series covering technical and customer engagement best practice
- Exhibition of innovative retrofit products and systems
- CoRE Fellowship Dinner and debate (9th April)

Who should attend?

- Landlords and asset managers
- Contractors and supply chain to the social housing sector
- Built environment academics and researchers

Benefits of attending

- Gain insight into best practice in the low carbon retrofit sector
- Meet and network with the leading experts in the retrofit field
- Identify innovations that can save you time and money on your retrofit projects
