Each year the Consumer Electronics Show lights up Las Vegas with an exhilarating showcase of cutting-edge technology.

Although the Nevada desert may not be the first place you'd look for energy-efficient tech, this year we spotted an array of green gems that exhibit trends towards more efficient, versatile, and sustainable gadgets.

From universal eco chargers to multi-tasking sunglass cameras and kinetic-energy harvesting gizmos, read on for our top 5 green gadgets from CES 2011!
